GENERAL CONCEPT

Note: The dimensions with (\*) are approximate and should be adjusted based on personal preference.

- Notes:
- 1) Use #8 or larger wood screws with torx heads in 1/8" dia. pre-drilled holes.
  - 2) Pre-drill all holes to prevent splitting of lumber by screws and lag screw.
  - 2) The builder should use care in workmanship and selection of materials.
  - 3) The creator of these plans makes no claim as to the safe working load and is not liable for any damages or injuries associated with it.
